## PROFILE

I'm a passionate and detail-oriented Computer Science student with a strong foundation in software development, problem-solving, and frontend technologies. I have hands-on experience building responsive, user-friendly websites using HTML, CSS, and JavaScript. I enjoy working in collaborative environments and tackling real-world challenges through clean code and modern design principles. Eager to grow both technically and personally, I'm always looking for opportunities to learn, adapt, and contribute to innovative teams and impactful tech projects.

## SKILLS

- **Front-End:** — HTML, CSS, JavaScript, Bootstrap, React, Angular

- **Back-End:** — Node Js, Python, SQL, My SQL

- **Programming Languages:** — C++, Python, JavaScript, Java

- **Others:** — Software Engineering, Algorithms & Data Structure, Object Onented Programrrung (OOP), Object Onented Design (OOD), mobile Development, Web Development

- **Tools:** — Git, GitHub, Figma, VS Code, Chrome DevTools

- **Languages:** — English (Intermediate), Arabic (Native)

## PROJECTS

**RPM Service,** *Car modification website* 🔗      2025
A professional landing page for a car tuning company, featuring a clean layout to highlight performance and aesthetic modifications.

**Travillifa,** *Tourist travel website* 🔗      2025
A modern landing page for a travel agency offering an intuitive and immersive experience for trip planning.

**Antica Pizzeria Port 'Alba,** *Italian restaurant* 🔗      2025
A visually appealing website for an Italian restaurant, featuring a warm design to present menu highlights and contact info.

**Medical Services Directory – Hurghada,** *Doctors website*      2025
A comprehensive website built to centralize and organize vital information for Hurghada residents. It includes doctors' schedules, hospitals' contact info, lab addresses and working hours — all in one accessible and user-friendly platform.

**RPM,** *Car showroom website* 🔗      2024
A stylish landing page showcasing high-performance sports cars. Built with responsive design and animations to enhance user interaction.

## EDUCATION

- **Programming Coursework:** Web Programming, Mobile App Development, OOP, Data Structure, Algorithms, Database, Operation System, Logic Programming, Computer Architecture,  Computer Graphics, Software Engineering , Linear Programming

## COURSES

**Front-End Web Development**
Div Academy – Completed July 2025
Udemy – Completed March 2025

**AI for Beginners**
HP LIFE – Completed July 2025

**Git & GitHub for Developers**
Coursera – Completed May 2025

**Data Science & Analytics**
HP LIFE - Completed July 2024

**Python**
Coursera – Completed November 2024

**PHP**
yanfaa – Completed April 2025

**JavaScript for Beginners**
Udemy – Completed June 2025

**UX / UI**
edraak – Completed May 2024

**C++**
Coursera – Completed October 2024

**Database Fundamentals**
Mahara-Tech – Completed February 2025

## PROFESSIONAL EXPERIENCE

**DIV Academy,** *Frontend Developer*                    07/2025 – 08/2025 | Egypt, Cairo
I built responsive components using HTML, CSS, and JavaScript, collaborated on real projects, and strengthened my Git/GitHub skills. I also improved in debugging and UI/UX practices through team feedback.

**Freelance,** *Graphic Designer*                    09/2023 – 07/2025 | Red Sea, Hurghada
I created custom designs for logos, social media, and print materials for various clients. I worked independently to understand client needs, deliver high-quality visuals, and manage deadlines using tools like Photoshop and Canva.

**Elmasria Print,** *Graphic Designer*                    06/2021 – 10/2021 | Red Sea, Hurghada
I designed print materials like flyers and banners, worked with clients to meet their branding needs, and developed strong skills in Photoshop and Illustrator.
